Pure elegance

AluNatur highlights the natural beauty of aluminum. An almost unlimited range of (semi-) transparent clearcoats applied on Brushed or Transparent Lacquering (TL) aluminum surfaces creates an exceptional color palette.

We are happy to speak to you in

AluNatur collection

AluNatur 1 layer High Durable Polymer (HDP) or Polyurethane Polyamide (PUR-PA)

Aluminum

Special Transparent Lacquering (TL) or Brushed aluminum substrates (0,5 up to 1,5 mm) are used to achieve the best possible AluNatur finish. Minimum quantities apply for these special surfaces. Please contact Euramax in case of volumes < 5 tonnes.

Guidelines

- Bare material may slightly vary in color / show up small irregularities
- Final coated product can slightly vary from sample
- Order projects in one batch to minimize color differences
- Protective film recommended to avoid installation scratches
- End use >1500 meters from coastal area
- No end use in heavy industrial / corrosive environments
- Limited end use between 30° NL and 30° SL
- Many other colors available on www.euramax.eu/alunatur

Unique aluminum design
