 **AnoMax**
Color your world with Euramax

Uniquely anodized

AnoMax is a range of pre-coated finishes on aluminum matching EURAS industrial standards. AnoMax stands for a new anodizing awareness that distinguishes itself by high warranties, great color consistency and price economy of coil coating.

AnoMax coatings offer great flexibility for bending and rollforming resulting in an enormous panel versatility. Add the possibility to create your own individual color and 'personal anodizing' is a fact.

Look and feel

Choose sustainable pre-coated aluminum

The average use of recycling content in pre-coated aluminum alloys is double in comparison to real anodized aluminum alloys. A huge difference if you know that recycling requires only 5% of the energy of primary aluminum production.

We are happy to speak to you in

AnoMax collection

AnoMax	Gloss level 30%
AnoMax ultra matt	Gloss level 10%

Guidelines

- Install panels in the same direction to avoid reflection differences
- Order projects in one batch to avoid color differences
- Many other colors available on www.euramax.eu/anomax

Benefits over anodized aluminum

- Flexibility for bending and rollforming
- Price economy
- Color stability
- Sustainability
